The Chemical Processing Industry encompasses a broad range of products, including petrochemical and inorganic chemicals, plastics, detergents, paints, pigments and more. The industry continues to grow as global demand for these products increases in both developed and developing countries.

Industrial Info Resources produces numerous tools within our Market Intelligence Database Platform that allows our clients to understand the trends affecting spending in the Chemical Processing market and quickly drill down into the actionable intelligence needed to take advantage of these opportunities.

**GEOSPATIAL ANALYSIS SOLUTIONS**

**GEOLOCATOR**

- Project & Plant Clustering by Timeframe, Geography & Industry
- Density and Heat Mapping by Total Investment Value

**KEY ACCOUNT LOCATOR (KAL)**

- Global View with Ability to Drill Down to Project- and Unit-Specific Activity
- Assets Owned by Key-Account Plant Owners
