Industrial Info's Food & Beverage coverage includes all aspects of the industry, from production to processing and packaging, to distribution. Our online platform tracks the following sectors: Meat & Poultry, Dairy, Beverages, Agricultural Products, and Baked Goods, Frozen & Prepared Foods. Also included in the Food & Beverage Industry is the warehousing and distributing sector as well as the rapidly expanding desalination industry.

Industrial Info’s research is regional with some sectors spanning all corners of the globe. We now cover all Food & Beverage segments in North America, Latin America and Oceania, and Europe with Asia on the horizon. Every day, the industry faces multiple challenges posed by processing, packaging, storing and distributing the products that we eat and drink.

**GEOSPATIAL ANALYSIS SOLUTIONS**

Project & Plant Clustering by Timeframe, Geography & Industry

Density and Heat Mapping by Total Investment Value

**KEY ACCOUNT LOCATOR (KAL)**

The KAL gives current PECWeb subscribers the ability to visualize all assets owned by an Ultimate Parent or Plant Owner company and navigate to a geo-spatial tool to identify and focus on specific targets.

Ability to Search & Display the Assets of More Than One Owner or Parent Company at a Time.

Target Specific Companies & Key Accounts
