

OIL & GAS INDUSTRY

Onshore & Offshore Oil, Gas & Refined Product Bulk Storage Terminals, Pipelines & Compressor/Pump Stations, and Production/Processing Facilities, Including LNG Liquefaction & Export

Industrial Info's global onshore & offshore coverage of the Oil & Gas Industry encompasses detailed information on active capital and maintenance projects with a combined value of over \$1.9 Trillion and more than 31,000 operational and pre-commissioned facilities throughout the world.

These include crude oil and natural gas processing plants, as well as pipeline infrastructure and storage terminals including LNG import and export terminals, natural gas and NGL storage facilities, crude oil, petroleum products and chemical storage terminals plus CO2 sequestration facilities.

- Major Capital & Maintenance Projects
- Plant and Unit Information
- Key Management Contacts
- Unplanned and Planned Unit Maintenance
- Equipment Details
- Latest Industry News Alerts

MAJOR PROJECTS

Capital and maintenance projects and key contacts that are constantly updated and tracked from the planning stages to the construction and start-up phases.

NGL

Industrial Info provides intelligence about project milestones, equipment needs, as well as details for future maintenance events (turnarounds) in gas processing and chemical units.

GLOBAL LNG

Our Global LNG coverage provides all information for LNG projects, plants, and units for both import and export facilities.

PLANTS/STATIONS

Access detailed profiles for operational and pre-commissioned oil & gas facilities, with up to eight key management contacts.

EQUIPMENT

Our equipment search allows users to access operational, pre-commissioned & decommissioned units, including compressors, pumps, and power generation drives.

ASSETS

Industrial Info's Pipeline Asset Tracking Tool provides details about pipelines across the world in a searchable format.

UNIT MAINTENANCE EVENTS

Provides access to historic, ongoing and future unit maintenance events across the globe, including those for compressor/pump/generator drives, amine units, LNG Liquefaction (Large, Micro, Peak Shaver), NGL Fractionators and others.

UNITS

Users can search for operational, pre-commissioned and decommissioned units across all industries. Unit details include startup/stop dates, actual and designed capacity, and more.

SECTORS IIR COVERS

PRODUCTION

- Onshore and Offshore Gathering Systems
- Onshore and Offshore Crude Petroleum and Natural Gas Processing
- Companies involved in processing crude petroleum or natural gas delivered from the LNG Liquefaction and Export Facilities
- Gas-to-Liquids (GTL) Facilities

TERMINALS

- Independent Storage Companies
- Independent Terminals Owned by Major Processors
 - Natural Gas Storage and Transportation Companies
- LNG Import and Regasification Facilities
- Carbon Dioxide (CO2) Storage

PIPELINES

- Oil, Gas & Refined Products Pipelines & Stations
- Natural Gas Liquids (NGL) Pipelines & Stations
- Carbon Dioxide (CO2) Pipelines
