

METALS & MINERALS INDUSTRY

Mines, Mills, & Processing Plants

Encompassing a wide array of sectors, from resource extraction to the creation and processing of end products, the Metals & Minerals Industry is one of the largest and fastest-growing markets in the world. Industrial Info provides the most extensive and accurate Metals & Minerals market intelligence available, which is continually verified and updated via our proven methodology.

Our Metals & Minerals Industry Platform contains detailed information on maintenance projects, operational and pre-commissioned facilities, and units and equipment, providing accurate, up-to date intelligence throughout the world.

- Major Capital and Maintenance Projects
- Planned and Unplanned Unit Maintenance
- Plant Information
- Unit & Equipment Details
- Key Management Contacts
- Latest Industry News Alerts

PLANTS, MILLS AND MINES

Profiles for operational, pre-commissioned and decommissioned mining, milling & processing facilities, with up to eight management contacts.

MAJOR PROJECTS

Capital and maintenance projects and key contacts that are constantly updated and tracked from the planning stages to the construction and start-up phases.

UNIT MAINTENANCE EVENTS

Historic, ongoing and future maintenance events for ethylene crackers, methanol, ammonia, fertilizer, nitric acid, sulfuric acid, air separation units and more.

LONG-TERM SERVICE AGREEMENTS

This information is integrated with Plant data to help users track Long-Term Service Agreement (LTSA) details on-site.

SECTORS INDUSTRIAL INFO COVERS

Mining

The Mining sector consists of mines and mining projects, including coal, iron, precious metals, potash, uranium, diamonds, minerals, rare earth elements and much more. Mine coverage identifies mine type (above-ground, underground and solution) and mining method.

Steel

The Steel sector consists of steel mills, including steel making, hot rolling, cold rolling, processing and fabrication.

Ferrous & Nonferrous Smelting

The Ferrous & Nonferrous Smelting sector includes smelters and smelting projects, including ferro-metals, copper, aluminum, nickel and so on.

Metal Finishing

The Metal Finishing sector consists of metals coating, galvanizing, annealing and other metals finishing processes.

Glass & Glass Products

The Glass & Glass Products sector includes plants that make glass containers, float glass, fiberglass, insulated glass, mirrors and other glass products.

Gypsum & Lime Products

The Gypsum & Lime Products sector includes plants that process gypsum and lime products like gypsum wallboard, quicklime, hydrated lime & others

Foundries & Forging

The foundries and forging sector includes ferrous and nonferrous foundries and forging operations.

Cement & Concrete

The Cement & Concrete sectors include cement manufacturing, cement grinding, concrete ready mix and concrete products.

Brick & Tile

The Brick & Tile sector includes ceramic brick and tile manufacturing.

Other Mineral Products

The Other Minerals Products sector consists of mineral-processing plants not elsewhere classified, such as talc, cut stone, abrasive products, asbestos products and so on.
